X CITATION AND REFERENCES

(a) In-text citation to reference

For one author, use the author’s last name and year separated by a comma. For example: (SEAFDEC, 2001), (Pongsri, 2015)

For two to five (three?) authors, use their last names separated by commas and with “and” before the very last name in the list, then the year separated by a comma. For example: (Pongsri and Siriraksophon, 2015)

For more than five (three?) authors, use the first author's last name and "et al." For example: (Pongsri, et al., 2014).

(b) References

Only works referred to in the text can be included in the reference section of the article.

References should be listed in alphabetical order.

In case the main author published more than once in the same year, the year of publication should be appended with alphabet (e.g. 2018a, 2018b, 2018c, and so on).

Hanging indentation should be used for listing the references.

The following reference formats and citations in the text should be followed:
