

LIST OF DOCUMENTS

Information Papers

- INF01 Prospectus
- INF02 List of Documents
- INF03 List of Participants

Reference Papers

- REF01 Southeast Asian State of Fisheries and Aquaculture (SEASOFIA) 2017
- REF02 The State of World Fisheries and Aquaculture (SOFIA) 2020

Working Papers

- WP01 Agenda
- WP01a Agenda and Timetable
- WP02 Status of Inputs for SEASOFIA 2022
- WP03 Draft SEASOFIA 2022
 - Part I: Overview of the Status and Trend of Capture Fisheries and Aquaculture in Southeast Asia
 - (Part II: Issues and Challenges in Sustainable Development of Fisheries of the Southeast Asian Region)
 - 1.1.1 Tuna and Tuna-like Species
 - 1.1.2 Round Scads
 - 1.1.3 Mackerels
 - 1.1.4 Anchovies
 - 1.1.5 Sardines
 - 1.1.6 Marine Shrimps
 - 1.1.7 Seaweeds
 - 1.2 Challenges and Future Direction
 - 2. Inland Fishery Resources
 - 3.1.1 Sharks and Rays
 - 3.1.2 Anguillid Eels
 - 3.1.3 Sea Cucumbers
 - 3.1.4 Seahorses
 - 3.1.5 Corals (hard and soft corals) and Coral Reef Ornamental Species
 - 3.1.6 Inland Species: Irrawady Dolphin and Asian Arowana
 - 3.2 Challenges and Future Direction

- 4.1.1 Reduction of Fishing Impact to Environment
- (4.1.2 Innovation for Responsible Fishing Operation)
 - (1) Energy Efficiency and Fuel-saving Options for Fishing Vessels
 - (2) Development and Accomplishment of Fishing Site Identification System
- 4.1.3 Gear Marking (ALDFG)
- 4.2 Challenges and Future Direction

- 5.1.1 Fish Utilization
- 5.1.2 Management of Food Losses and Wastes
- 5.1.3 Food Safety: Marine Biotoxin, and Scrombrotoxin
- 5.2 Challenges and Future Direction

- (6.1.1 Management of Fishing Capacity and Combating IUU Fishing)
 - (1) Management of Fishing Capacity
 - (2) Development of a Database for Regional Fishing Vessels Record
 - (3) Catch Documentation Schemes
 - (4) Port Stat Measures
 - (5) MCS Systems and Regional Cooperation for Combating IUU Fishing
 - (6) Combating IUU Fishing in Inland Fisheries
- (6.1.2 Management Concepts and Approaches)
 - (1) Ecosystem Approach to Fisheries Management (EAFm) and Ecosystem)
 - (2) Community-based and Co-management
- 6.1.3 Habitats Protection and Fishery Resources Enhancement
- 6.1.4 Application of Fishery Information Systems for Fisheries Management
- 6.2 Challenges and Future Direction

- 7.1.1 Socio-economic Importance of Aquaculture for Food Security and Poverty Alleviation
- 7.1.2 Fish Health Management
- 7.1.3 Fish Meal Dependence in Aquaculture
- 7.1.4 Production and Dissemination of Good Quality Seedstocks
- 7.1.5 Production of Safe and Quality Aquaculture Products
- 7.1.6 Impacts of Intensification of Aquaculture on the Environment
- 7.1.7 Genetics in Aquaculture
- 7.1.8 Traceability of Aquaculture Products
- 7.2 Challenges and Future Direction

- 8.1 Climate Change and Natural Disasters
- 8.2 Aquatic Pollution
- 8.3 Impacts of Pandemics to Fisheries and Aquaculture
- 8.4 Fisheries Subsidies

- 9.1 Labor in Fisheries and Fish Workers
- 9.2 Micro-finance, Credit, Insurance in Support of Small-scale Fisheries
- 9.3 Gender Equity in Fisheries

- (Part III: Outlook of Fisheries and Aquaculture for the Southeast Asia)
 - 1. Growing Demand for Fish and Fishery Products
 - 2. Issues and Challenges Towards Sustainable Utilization of Fishery Resources
